Thanks Glynnis! I am worried that we will overwhelm your class, so I checked with Howard Lefkin to see how many people he had on his list as having completed initial CPR training last year. It looks like there are about 8 lab people on this list who were not included on your original distribution list, plus 3 NBS people. If I invited those 11 people, do you think that would be too many for the instructors? Thanks, Linda

Hi Linda

I contacted the EMT at Fallon Ambulance that will be doing our training and he is fine with the lab staff attending

Thanks,

Hi Glynnis:

Is this class appropriate for anyone who has been BLS-certified in the past (ie, last year) and now needs a refresher, even if they are not healthcare providers? Several lab staff have approached me, expressing interest in renewing their certification. I thought I'd check with you on this first before looking into other BLS course options.

Thanks!

Linda

Subject: Health Care Provider CPR & AED Recert Dates: Dec. 8 & 9, 2010

Hi Everyone,

The dates have been set for the Health Care Provider CPR & AED Recert classes: **Wednesday, December 8th (1-4pm) & Thursday 9 (5-8pm)**. Both classes will be held at the State Lab in Conference Rm.123. A Fallon Ambulance EMT will be the instructor. There is a \$10.00 fee that the student will need to pay for their CPR card. Checks should be made out to Fallon Ambulance, checks will be collected right before the start of each class. We need to have a minimum of 10 students per class for the class to be held.

Please feel free to share this email with other staff but note this is not a basic general public CPR training, it is a health care provider re-cert class so it is abbreviated and offered at a faster pace given that the students have taken CPR&AED training before and have been certified previously.

Please let me know no later than Friday, November 19th if you plan to take a class and which date and time you wish to sign up for.

Thanks,

Glynnis LaRosa, RN, MPH, CPHQ
